## **The Organisation**

A global company, specialising in the design of adult oriented (gambling) computer games. As such, you must be over 18 years old to apply.

## **The Role**

Training to become an IT Technician whilst working towards a qualification. The Apprentice IT Technician will be involved with all aspects of the business focussing on Technical and Customer Service based elements of IT Support.

## **Key areas of Responsibilities and Tasks:**

- Responsible for assisting in the production of graphical assets.
- Working closely as part of the Product Design team to deliver innovative concepts.
- Delivering to timescales with/without input from colleagues and partners.
- Good communication skills both internally with the team and with customers/partners.
- Working well in a team of software developers, designers, testers and gaming specialists.
- Provide regular project updates to Managers, Project Managers and/or co-workers as necessary.
- Provide good supporting technical documentation.

## **The Right Candidate:**

- Excellent Attitude
- Creative flair applied to computer design
- Good time keeping

## **Training:**

Excellent training comprising:

- BTEC Level 3 certificate in ICT Systems and Principles
- BTEC Level 3 Diploma in Professional Competence for IT and Telecoms Professionals
- Various Microsoft MTA Qualifications

Following completion of the apprenticeship, there is a possibility of the successful candidate being offered a full time job at the company.
